

Mystery Object Riddles

Welsh Water looks after the environment, and takes care of animals and plants.

You visited our Discovery Centre and used a map to find clues. Pretend you have hidden ten objects in the forest. Write a riddle for each of the objects giving clues to your classmates.

Here are some examples.

	<p>What am I? I am the same colour as grass. You fill me up with water. I have a nozzle on the end. I am used for watering plants. What am I?</p>
<p>What am I? You attach me to a tap. I am used to fill up paddling pools. I am also used to wash cars. I am long like a snake. What am I?</p>	

Choose 8 objects and write riddle clues for these objects.

Your clues must be clear and your friend must be able to understand them.

Follow the template above.
4 clues for each object.

Remember punctuation.
A . , ? ! : ; ... ()
