

## Waste Water Recipe 2

When you flush the toilet the dirty water (called waste water) flows along pipes called sewers to a Welsh Water Waste Water Treatment Works where it is treated. Our sewer pipes are long enough to reach from Wales to Australia and back!

Can you remember making waste water? What things did we put in it? Make a list of them. Also can you add anything else that you might find in a sewer from drains, sinks or toilets. Yuk!

Poo, dead goldfish ...
