

Let's stop the block

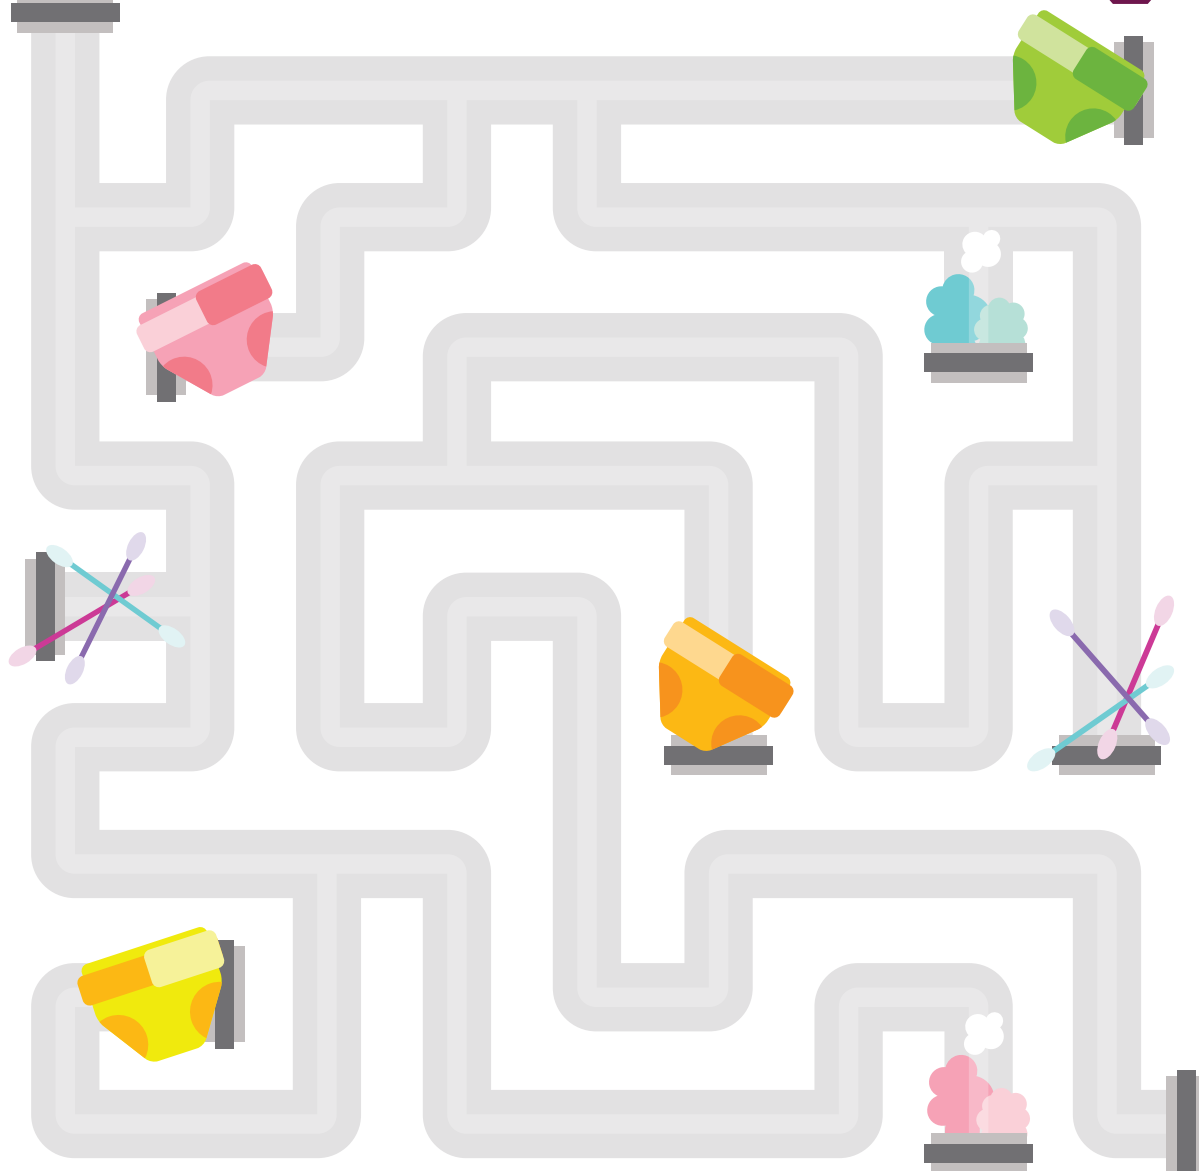

Welsh Water needs your help!

Flushing items like nappies, wet wipes and cotton wool balls down the toilet, and pouring things like fat, oils and grease

down the sink, can cause BIG problems. It can lead to blockages in your house, flooding in your street and pollution in your neighbourhood.

Help us to stop the block by telling your parents that only the 3 ps should go down the toilet: pee, poo, paper!
Everything else should be put in the bin!
