

Who blocked the waste pipes?

Consider the shopping habits of the following people. Which individual(s) are most likely to be responsible?

The diagram illustrates a waste pipe system serving four households. From left to right: a brown house with a grey beard icon, an orange house with a man in sunglasses icon, a green house with a man in a red shirt icon, and a tan house with a man and woman icon. A grey pipe runs horizontally below the houses, with vertical pipes connecting each house. A red arrow points down to a 'Blockage' in the main horizontal pipe between the orange and green houses. Below each house is a blue box containing a character icon, a description, and a 'My Shopping List' form.
