## Interim management report

The Directors have pleasure in presenting their management report, together with the financial statements for the six months to 30 September 2020 on pages 4 to 15.

#### **Principal activities**

Glas Cymru Anghyfyngedig is the parent company of a group of companies forming a Whole Business Securitisation and governed by a Common Terms Agreement.

The Company's immediate parent and holding company is Glas Cymru Holdings Cyfyngedig; a company limited by guarantee which was formed on 15 December 2015 and registered in England and Wales.

References to 'Glas Cymru' in these financial statements relate to the Glas Cymru Anghyfyngedig group and not the larger group headed by the ultimate parent company, Glas Cymru Holdings Cyfyngedig.

The Glas Cymru Anghyfyngedig group structure consists of:

- Glas Cymru (Securities) Cyfyngedig, the holding company of Dŵr Cymru (Holdings) Ltd and its subsidiaries.
- Dŵr Cymru Holdings Ltd, the intermediate holding company of Dŵr Cymru Cyfyngedig and Dŵr Cymru (Financing) Ltd.
- Dŵr Cymru Financing Ltd was placed into voluntary liquidation on 9 September 2019. This company was previously the 'issuer' company for the group's bonds. Dŵr Cymru (Financing) Ltd was incorporated in the Cayman Islands but managed, controlled and was resident in the UK for tax purposes. The company previously on-lent the proceeds of any bonds issued to Dŵr Cymru Cyfyngedig.
- Dŵr Cymru (Financing) UK plc is a public limited company incorporated in the UK on 16 April 2019. This company replaces Dŵr Cymru Financing Ltd as the 'issuer' company for the group's bonds, which are listed on the Luxembourg Bourse. The company on-lends the proceeds of any bonds issued to Dŵr Cymru Cyfyngedig.
- Dŵr Cymru Cyfyngedig is a wholly-owned subsidiary of Glas Cymru Anghyfyngedig and is the group's principal operating
  company. Its principal activity is the supply of water and treatment and disposal of waste water under the Instrument or
  Appointment made by the Secretary of State for Wales under the Water Act 1989.

#### Results and dividends

The loss before taxation for the six month period to 30 September 2020 amounted to £134 million (September 2019: loss of £119 million). No dividend was declared or paid during the period (2019: £nil).

#### **Business review**

The underlying loss (loss before tax excluding fair value gains on derivative financial instruments) for the six month period to 30 September 2020 was £65.9 million (September 2019: loss of £27.4 million). Revenues were lower (by £12 million) relating mainly to consumption decreases and the suspension of standing charges following to the temporary closure of businesses as a result of the pandemic. In addition, operating costs were higher (by £7 million); a £17 million increase related to the exceptional costs of COVID-19 and a further £2 million to the atypical weather costs of Storm Dennis and prolonged hot, dry weather during the summer. These increases have been partially offset by reductions in other operational costs, including the impact of a lower core bad debt and new ways of working. In addition the depreciation charge was higher (by £13 million) as a consequence of a number of capital schemes being completed in recent months.

"Customer reserves" (the company's regulatory capital value less net debt) now stand at over £2.3 billion.

The strong operational performance and financial position bring significant benefits to the three million people Dŵr Cymru serves across most of Wales, Herefordshire and Deeside while also safeguarding the environment as it continues with its five year £1.7 billion investment programme. The performance reflects the efficient way the Company is managing costs while continuing to improve services to customers.

#### Principal risks and uncertainties

From the perspective of the group, the principal risks and uncertainties are integrated with the principal risks of the Glas Cymru Holdings Cyfyngedig group (see below) and are not managed separately. Accordingly, the principal risks and uncertainties of that group are disclosed within the group's annual report. Management does not consider that these have changed materially during the first six months of the year, nor that there will be any significant change between now and the end of the year. Page 15 of this report refers to risk management of treasury activities within the Glas Cymru Anghyfyngedig group.

#### **Key Performance Indicators**

The Company is part of a group controlled by Glas Cymru Holdings Cyfyngedig. The directors of Dŵr Cymru Cyfyngedig use group-wide key performance measures as indicators to the development, performance and position of the company. These are discussed in the Annual Report of Glas Cymru Holdings Cyfyngedig which does not form part of this report (available on the group's website at http://www.dwrcymru.com/en/Reading\_Room\_Library/Company-Reports.aspx).

#### 1. Basis of preparation

Glas Cymru Anghyfyngedig (the Company) is a company domiciled in England and Wales. These condensed consolidated interim financial statements for the six months ended 30 September 2020 comprise the Company and its subsidiaries (together referred to hereafter as the Group). The Group's principal activity is the operation of water and sewerage business in the UK.

These interim financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting and should be read in conjunction with the Group's last annual consolidated financial statements for the year ended 31 March 2020. They do not include all of the information required for a complete set of IFRS financial statements, however selected explanatory notes are included to explain items that are significant to an understanding of the changes in the Group's financial position and performance since the last annual financial statements. The principal accounting policies adopted in the preparation of these condensed consolidated interim financial statements are consistent with the published Annual Report and Accounts for the year ended 31 March 2020. The Annual Report and Accounts are published on the Group's website www.dwrcymru.com and are available from the Company Secretary on request.

These condensed consolidated interim financial statements are unaudited. The interim financial results do not comprise the Group's statutory accounts within the meaning of Section 434 of the Companies Act 2006. The comparative figures for the financial year ended 31 March 2020 are not the Group's statutory accounts for that financial year. Those accounts have been reported on by the Group's auditor and delivered to the registrar of companies. The report of the auditor was (i) unqualified, (ii) did not include a reference to any matters to which the auditor drew attention by way of emphasis without qualifying their report, and (iii) did not contain a statement under section 498 (2) or (3) of the Companies Act 2006. No events or transactions took place during the current interim period which are material to an understanding of these financial statements.

#### **Estimates and judgements**

The preparation of condensed consolidated interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenditure. Actual results may differ from these estimates.

In preparing these condensed consolidated interim financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty that affect the reported amount of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reported period were the same as those that applied to the consolidated financial statements for the year ended 31 March 2020. The significant judgements and estimates relate to the provision for impairment of trade receivables, pension benefits, fair value estimation and capitalisation with the exception of changes in estimates that are required in determining the provision for income taxes. Taxes on income in the interim period are accrued using the tax rate that would be applicable to expected total annual earnings. The Group has reviewed assets held for any indications of impairment and has made additional provisions against trade debtors and the measured income accrual in expectation of COVID-19 related deteriorations in cash collection.

#### Going concern

The financial statements have been prepared on the going concern basis as the Directors have a reasonable expectation that the Group and parent company have adequate resources for a period of at least 12 months from the date of their approval and that there are no material uncertainties to disclose. In assessing the appropriateness of the going concern basis of accounting the Directors have reviewed the resources available to the Group in the form of cash and committed bank facilities as well as consideration of the Group's capital adequacy, along with a baseline plan which reflects a view of the estimated impact of the COVID-19 pandemic on the Group.

This baseline plan reflects social distancing continuing through the autumn, with gradual lifting of restrictions. Unemployment is assumed to be around 10%, recovering to pre-pandemic levels by 2023; CPIH falls to an average of 1.0% during 2020 and recovers to the government's long-term target of 2% by the end of 2022. The estimated impacts on turnover in 2020-21 is a £19m reduction in non-household revenues of £172m (11%, demand-driven) and £10m of reductions in other revenues e.g. from construction activity (25%) — a net reduction of £29m (however under regulatory mechanisms lost revenues are recoverable in future years). The baseline plan has then been subject to a further more extreme downside stress scenario, which assumes an additional drop in CPIH below 1%, recovering to 2% by March 2023 and unemployment at around 12%. Consequential impacts on the Group's cost base are greater pressure on bad debts (circa £9m per annum through to 2022-23) and delays in the delivery of cost efficiencies in 2020-21 (£9 million), as well as further reductions in revenues. Reduced cash flows would impact on key financial metrics, in particular interest cover ratios. In the extreme downside scenario, gearing and interest covers retain significant headroom within the trigger levels specified in borrowing covenants.

Having considered these matters, the Directors do not believe there are any material uncertainties to disclose in relation to the Group's ability to continue as a going concern.

#### 2. Segmental information

The Directors consider that there is only one operating segment, being the operation of water and sewerage business (and peripheral commercial activities) in the UK. As the Group has only domestic activities there is also only one geographical segment; therefore, the disclosures for this segment have also already been given in these financial statements. Whilst the Group operates in a single segment, its activities can be disaggregated into the following principal income streams:

	Six months		
	ended	Six months ended	Year ended
	30 September	30 September	31 March
	2020	2019	2020
	(unaudited)	(unaudited)	(audited)
	£m	£m	£m
Regulated revenue			
Water	161.6	163.5	322.8
Sewerage	201.6	206.6	394
Retail	19.7	23.3	55.3
Total regulated revenue	382.9	393.4	772.1
Other (non-regulated)	2.0	3.1	5.2
Total revenue	384.9	396.5	777.3

Regulated revenue relates to the provision of water, sewerage and related retail services operating under Dŵr Cymru Cyfyngedig's licence as part of the water industry in England and Wales, regulated by the Water services Regulation Authority (Ofwat). Other (non-regulated) revenue relates to income streams which are not subject to Ofwat's price control; these principally comprise organic energy generation and certain other activities which are peripheral and/or complementary to the Group's core water and sewerage business.

#### 3. Exceptional costs

During the six months to 30 September 2020 the company has incurred significant additional costs as a direct result of the COVID-19 pandemic; due to their size and nature these have been disclosed in aggregate as an exceptional item on the face of the income statement. The additional costs can be split into the following categories:

	£m
Bad debt charges	7.4
National Grid (additional levy following national demand drop)	1.7
PPE (hand sanitisers, wipes, masks, goggles etc.)	5.9
Cleaning, tankering, security	0.8
IT hardware	0.3
Vehicle hire	0.1
Manpower	0.4
Other	0.2
Total	16.8

#### 4. Financial expenses

a) Financial expenses before fair value losses	Six months ended 30 September 2020 (unaudited) £m	Six months ended 30 September 2019 (unaudited) £m	Year ended 31 March 2020 (audited) £m
Financial income	2.7	3.1	6.1
Financial expenses			
Interest payable on bonds	(54.2)	(48.3)	(93.5)
Indexation on index-linked bonds	(4.0)	(8.2)	(36.3)
Indexation on index-linked loan	(1.8)	(4.6)	(6.1)
Interest payable on finance leases	(4.7)	(4.2)	(17.4)
Other loan interest	(8.0)	(7.4)	(17.7)
Other interest payable and finance costs	(3.4)	(3.2)	(5.6)
Net interest charge on pension scheme liabilities	(1.0)	(1.2)	(2.2)
Capitalisation of borrowing costs under IAS 23	7.5	7.5	14.4
	(69.6)	(69.6)	(164.4)
Net financial expenses before fair value adjustments	(66.9)	(66.5)	(158.3)
b) Fair value losses on derivative financial instruments			Year ended
	30 September 2020	30 September 2019	31 March 2020
	2020	2019	2020

b) Fair value losses on derivative financial instruments	Six months ended 30 September 2020	Six months ended 30 September 2019	Year ended 31 March 2020
	(unaudited)	(unaudited)	(audited)
	£m	£m	£m
Fair value losses on interest rate swaps	(11.4)	(12.6)	(21.6)
Fair value losses on index-linked swaps	(65.7)	(83.3)	(20.9)
Fair value gains/(losses) on trading derivatives	8.7	4.0	(5.8)
Total fair value losses on derivative financial instruments	(68.4)	(91.9)	(48.3)

Whilst the Group employs an economically effective policy using interest rate and index-linked swaps, the hedge accounting criteria of IFRS 9 are not satisfied. Consequently, the Group's interest rate and index-linked swaps are fair valued at each balance sheet date with the net loss or gain disclosed in the income statement. Over the life of these swaps, if held to maturity, these fair value adjustments will reverse and reduce to zero. The notional value of the interest rate swap is £192m (March 2020: £192m) and the notional value of the index-linked swaps is £1,435m (March 2020: £1,435m).

#### 5. Taxation

	30 September 2020	30 September 2019	31 March 2020

Loss before taxation multiplied by the corporation tax rat in the UK of 19% (six months to 30 September 2019: 17%	e	(===:=)	, ,
and year ended 31 March 2020: 19%)	25.5	22.7	33.3
Effects of:			
Adjustments in respect of prior years	0.1	-	(0.1)
Other permanent differences	(0.5)	(0.5)	(1.0)
Effect of pension payment in excess of service charge	-	0.1	1.6
Effect of changing rate for deferred taxes from 17% to 19	% -	-	(23.3)
- Difference in standard rate of corporation tax (19%) and	I		
rate used for deferred tax (17%)		(2.4)	(3.6)
	25.1	19.9	6.9

The Group does not expect to pay corporation tax for the current year due to the availability of capital allowances on its investment programme. Adjustments in respect of prior years relate to revisions to tax credits for energy efficient capital expenditure and adjustments to deferred tax balances in respect of capital expenditure.

#### 5. Taxation (continued)

Deferred tax has been calculated at 19% for the 6 month period ended 30 September 2020 and the year ended 31 March 2020, based on the corporation tax rate which applies from 1 April 2020. Deferred tax was calculated at 17% for the 6 month period ended 30 September 2019.

#### 6. Revaluation reserve

Net book value					
At 30 September 2020 (unaudited)	19.3	2,665.0	3,089.8	4.2	5,778.3
At 31 March 2020 (audited)	20.1	2,630.6	3,092.3	5.7	5,748.7
At 30 September 2020 (unaudited) - historic cost basis	19.3	1,934.6	2,338.0	4.2	4,296.1

The net book value of fixed assets includes £83.3m (March 2020: £77.9m) of capitalised interest. The Board has approved capital expenditure for the year to 31 March 2021 of £366m. While only a portion of this amount has been formally contracted for as at 30 September 2020, the Group is effectively committed to the total as part of its overall capital investment programme.

#### 8. Trade and other receivables

	30 September 2020	30 September 2019	31 March 2020
	(unaudited)	(unaudited)	(audited)
Amounts falling due within one year	£m	£m	£m
Trade receivables	351.1	371.1	558.0
Less provision for impairment of receivables	(72.6)	(74.5)	(81.8)
Trade receivables - net	278.5	296.6	476.2
Prepayments and accrued income	98.9	102.6	85.6
Amounts owed by group undertakings	0.3	0.7	-
Other receivables	15.2	15.7	13.4

Non-current			
Deferred income	326.8	281.3	314.4

#### 10. Analysis and reconciliation of net debt

Net debt is defined as the value of cash and cash equivalents less net accrued interest and total borrowings.

<ul> <li>a) Net debt at the balance sheet date may be analysed as:</li> </ul>	30 September 2020	30 September 2019	31 March 2020
	(unaudited)	(unaudited)	(audited)
	£m	£m	£m
Cash and cash equivalents	582.1	290.2	658.7
Debt due after one year	(3,262.5)	(3,097.5)	(3,272.2)
Debt due within one year	(362.7)	(46.2)	(376.3)
Lease liabilities	(411.4)	(425.2)	(424.1)
Accrued interest	(86.1)	(80.1)	(48.5)
	(4,122.7)	(3,649.0)	(4,121.1)
Net debt	(3,540.6)	(3,358.8)	(3,462.4)

#### 10. Analysis and reconciliation of net debt

b) The movement in net debt during the period may be summarised as:	30 September 2020	30 September 2019	31 March 2020
	(unaudited)	(unaudited)	(audited)
	£m	£m	£m
Net debt at start of period	(3,462.4)	(3,275.6)	(3,275.6)
Movement in net cash	(76.6)	(202.9)	165.6
Movement in debt arising from cash flows	41.8	162.9	(311.4)
Movement in net debt arising from cash flows	(34.8)	(40.0)	(145.8)
Movement in accrued interest	(37.6)	(29.1)	2.5
Indexation of index-linked debt	(5.8)	(12.8)	(42.4)
Other non-cash movements	-	(1.3)	(1.1)
Movement in net debt during the period	(78.2)	(83.2)	(186.8)
Net debt at end of period	(3,540.6)	(3,358.8)	(3,462.4)

#### 11. Financial risk management and financial instruments

The Group's activities expose it to a variety of financial risks: market risk (including fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

The condensed consolidated interim financial statements do not include all financial risk management information and disclosures required in the annual financial statements; they should be read in conjunction with the group's annual financial statements for the year ended 31 March 2020. There have been no changes in the risk management department or in any risk management policies since the year end.

In accordance with IFRS 13 Fair Value Measurement trading and treasury derivatives of the group are categorised into different levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (prices) or indirectly (derived from prices); and
- Level 3: inputs for the asset or liability that are not based on observable market data .

All of the Group's treasury derivatives are categorised at Level 2. Trading derivatives relating to power price hedges are categorised as Level 2 where market to market valuation are received for these trades. Where market to market valuations are not received, the fair values are estimated rather than observable and are therefore categorised as Level 3. As at 30 September 2020, there fair values of derivatives were as follows:

#### Level 2:

- **Assets**: trading derivatives £1.2m, treasury derivatives £36.2m (March 2020: trading derivatives £0.1m, treasury derivatives £36.1m).
- **Liabilities**: trading derivatives £nil, treasury derivatives £586.0m (March 2020: trading derivatives £1.2m, treasury derivatives £508.9m).

#### 11. Financial risk management and financial instruments (continued)

#### Level 3:

- Assets: trading derivatives £5.7m (March 2020: trading derivatives £0.2m).
- Liabilities: trading derivatives £nil (March 2020: trading derivatives £0.9m).

Trading derivatives relate to power hedges and treasury derivatives relate to interest rate swap contracts; all are recorded on the balance sheet at fair value.

Level 2 debt instruments are valued using a discounted cash flow approach, which discount the contractual cash flows using discount rates derived from observable market prices of other quoted debt instruments of the counterparties.

Level 3 debt instrument are valued using a discounted cash flow approach, which discounts the contractual cash flows using discount rates derived from observable market prices of other quoted debt instruments of the counterparties. Level 3 debt instruments are valued by comparing valuations from Level 2 trades for the same periods, with the valuations from observable trades being inflated or deflated to allow for any fixed price variations.

#### 12. Contingent liabilities

Claims under the Environmental Information Regulations 2001 (EIR): since 2016, the Company has received notice of alleged claims from various groups comprising individuals and entities operating personal search businesses. The claims are for the repayment of charges received for drainage and water searches carried out since 2004, on the basis that these charges were levied contrary to the EIR. Since April 2020, separate court claims have been served on the Company by three groups of claimants, seeking the repayment of charges and injunctive relief. The collective claimed quantum is £9.9 million, but this figure may be subject to change. The Company has filed defences to each of the claims. The three claims are at an early stage in proceedings with substantive directions yet to be issued. It is anticipated that the three claims will be progressed together. At this stage, any settlement is not deemed probable and so no provision has been recognised.
