1. Introduction

This booklet contains the wholesale element of Dŵr Cymru's water and sewerage charges. It has been published to demonstrate compliance with the price controls determined in respect of wholesale water and sewerage activities, in compliance with Ofwat's Information notice "Wholesale charging rules and information requirements."

Full charges are published separately in Dŵr Cymru's Scheme of Charges document which also includes the general conditions of service.

Under current legislation certain specific wholesale charges within this document will be of relevance to water supply licensees and customers that are eligible to replace Dŵr Cymru with a licensee in respect of their water supply (wholesale water charges for non-household customer whose water consumption is 50 megalitres (Ml) or greater a year).

The wholesale charges for these eligible premises are also contained in the "Wholesale Tariff Document" which also contains certain non-primary charges and conditions of service. This document can be accessed from the internet location below.

2. Other charging schedules

Dŵr Cymru Welsh Water also publishes the following additional charging schedules;

Scheme of Charges

Water and sewerage charges for household and non-household customers.

Developer Services Schedule of Charges

Charges for new connections and other activities to support Developers.

Wholesale Tariff Document

Primary charges for eligible premises that could be supplied with water by a water supply license with a retail or restricted retail authorisation. This document also includes Non-primary charges that would, where relevant, be payable by a water supply licensee.

3. Wholesale Household Charges

The standard household charges cover all water and sewerage services to residential customers.

The water services charges cover the following wholesale services: water resources, raw water distribution water treatment and treated water distribution.

The sewerage services charges cover the following wholesale services: sewage collection (foul water drainage, surface water drainage and highway drainage), sewage treatment and sludge transport, treatment and disposal. There are also charges for residential properties that do not discharge their surface water into our network at a reduction to the standard rates.
