

Dŵr Cymru  
Welsh Water

Our PestSmart project promotes  
the safe storage, use and disposal of pesticides.

If a pesticide or chemical  
enters a watercourse, you  
should report it immediately  
to Natural Resources Wales.

24hr reporting line:  
**0300 065 3000**

They will ask you:

- Who you are
- Where you are
- What has happened
- What and roughly  
how much has entered  
the watercourse

THIS IS IMPORTANT  
TO US AS YOU MAY BE  
WORKING UPSTREAM OF  
OUR DRINKING WATER  
ABSTRACTION POINT
